

**In Another Room**  
**Elvis Costello**

**E C#m A E**

**E C#m**

In another room just out of my sight

**A E**  
Words we used to say become so smite

**C#m A**  
Will they disappoint?

**A E B**  
And I know you won't return my kiss

**E B**  
Did I not love you quite like this

**A**  
In another room

**E Esus4 E**

In another room where I'm obliged to wait  
Til I become the man you barely tolerate  
And the blood will flow(?)  
And it makes me drunk at the (?) door  
Did I not love you anymore  
In another room

**B C#m**  
In another room where I feel vacant

**A E**  
I can't get used to it just yet

**B C#m**  
In another room you're crying and shaking

**A B A G#m B**  
Cursing the very day we met

**E C#m**  
In another room where we were before

**A E**  
Now you take your boy and you close the door

**E C#m**  
In another room he's kissing you so hard

**A E**  
The glass that's in his hand it shatters into shards

**C#m A**  
(?)

**E B**  
And the blood will run down in his cuff

**E B**  
Did I not love you quite enough

**A E**

In another room

**A** **E**

Just out of my sight

**A** **B**

In another room

**A** **E** **Esus4 E**

Goodbye, good night.
