E **C#m**
In another room just out of my sight

A **E**
Words we used to say become so smite

C#m A
Will they disappoint?

A E B
And I know you won't return my kiss

E B
Did I not love you quite like this

In another room

E Esus4 E

In another room where I'm obliged to wait
Til I become the man you barely tolerate
And the blood will flow(?)
And it makes me drunk at the (?) door
Did I not love you anymore
In another room

B **C#m**
In another room where I feel vacant

A **E**
I can't get used to it just yet

B **C#m**
In another room you're crying and shaking

A **B A G#m B**
Cursing the very day we met

E **C#m**
In another room where we were before

A **E**
Now you take your boy and you close the door

E **C#m**
In another room he's kissing you so hard

A **E**
The glass that's in his hand it shatters into shards

C#m A
(?)

E **B**
And the blood will run down in his cuff

E **B**
Did I not love you quite enough

A E
