No More
Elvis Presley

Intro: C

```
C                                        G7
No more do I see the starlight caress your hair
G7                                       C
No more feel the tender kisses we used to share
C                                        G7
I close my eyes and clearly my heart remembers
G7                                       C
A thousand good-byes could never put out the embers
```

```
[NC]             C              G7
Darling I love you so and my heart forever
                 Dm7           G7
Will belong to the memory of the love that we knew
   C
before
[NC]                  C              G7
Please come back to my arms, we belong together
G7               Dm7              G7
Come to me let s be sweethearts again and then let
          C
us part no more.
```

```
C#                                       G#7
No more do I feel the touch of your hand on mine
G#7
No more see the lovelight making your dark eyes
C#
shine
C#                                       G#7
Oh how I wish I never had caused you sorrow
G#7                                      C#
But don t ever say for us there is no tomorrow
```

```
[NC]             C#             G#7
Darling I love you so and my heart forever
                 D#m7          G#7
Will belong to the memory of the love that we knew
   C#
before
[NC]                  C#             G#7
