T-R-O-U-B-L-E
Elvis Presley

                                             C
If you re looking for trouble

                                               C
You came to the right place

                                               C
If you re looking for trouble

                                             C
Just look right in my face

                                       C
I was born standing up

                              C
And talking back

                                                 C7
My daddy was a green-eyed mountain jack

                          F   C
Because I m evil, my middle name is misery

              G7   F   C
Well I m evil, so don t you mess around with me

                                                 C
I ve never looked for trouble

                              C
But I ve never ran

                                     C
I don t take no orders

                                  C
From no kind of man

                              C
I m only made out

                                    C
Of flesh, blood and bone
  C
But if you re gonna start a rumble

                  C7
Don t you try it on alone

                        F   C
Because I m evil, my middle name is misery

              C   G7   C
Well I m evil, so don t you mess around with me
C
I m evil, evil, evil, as can be
C
I m evil, evil, evil, as can be
        G7   G7   G7
                  C
So don t mess around don t mess around don t mess around with me
C

I m evil, I m evil, evil, evil
      G7   **G7**   **C**
So don t mess around, don t mess around with me
C
I m evil, I tell you I m evil
        G7   **C**
So don t mess around with me

Yeah

I m evil, I m evil, evil, evil
      G7   **G7**   **C**
So don t mess around, don t mess around with me
C
I m evil, I tell you I m evil
        G7   **C**
So don t mess around with me

Yeah
