I woke up this morning and I tried to call you, mmm

**G C9**  
But you weren t there and that put me in despair

**D Fm#7 Bm D**  
So I thought that maybe I could lose my mind

**E7 G D**  
In the countryside so I went for a ride

**Fm G A7 D**  
But I never stopped thinking about you

**G A7 D**  
Found myself wishing you were there

**Bm D/A G**  
Just to be with me, feel the breeze

**E7 A7**  
Sun didn t smile I didn t care

(The rest of the song remains the same)

I decided to try just one more time  
To let you know I really love you so  
Before I arrived I saw you go away  
With another guy, a tear filled my eye

But I never stopped thinking about you  
Found myself wishing you were there  
Just to be with me, feel the breeze

Sun didn't smile I didn't care

A long time has past since that day I cried

Life is fine and I'm doing fine

When I'm at home and I feel all alone

Well I think of you, try to get a message through

But I never stopped thinking about you

Found myself wishing you were there

Just to be with me, feel the breeze

Sun didn't smile I didn't care
