

True Love Travels On A Gravel Road
Elvis Presley

C/G **Em**
How many girls choose cotton dress worlds
F **C/G**
When they could have satins and lace
F **G**
And stand by her man, never once letting shade touch her face
C/G
How many hearts could live through all the winters
F **C/F**
We ve known and still not be cold
C/G **F** **C/G**
True love travels on a gravel road.
C/G
Love is a stranger and hearts are in danger
F **C/G**
On smooth streets paved with gold
C/G **F** **C/G**
For true love travels on a gravel road.

Down through the years we ve had hard times and tears
But they only helped our love grow
And we ll stay together no matter how strong the wind blows
Not once have I seen your blue eyes filled with envy
Or stray from the one that you hold
Oh true love travels on a gravel road.
Love is a stranger and hearts are in danger
All through streets paved with gold
For true love travels on a gravel road.
Yeah, true love travels on a gravel road. Mmmm
True love travels on a gravel road.
True love travels on a gravel road.
