

**White Christmas**  
**Elvis Presley**

*Intro: D*

**D**                      **Em**                      **A7**  
I m dreaming of a white Christmas  
**G**                      **A7**                      **D**  
Just like the ones I used to know  
**D**                                      **D7**  
Where those tree-tops glisten  
**G**                      **Gm**  
And children listen  
**D**                      **G**                      **Em**                      **A**  
To hear sleighbells in the snow  
**D**                      **Em**                      **A7**  
I m dreaming of a white Christmas  
**G**                      **A7**                      **D**  
With every Christmas card I write  
**D**                      **D7**                      **G**                      **Em**  
May your days be merry and bright  
**D**                      **A**                      **D**  
And may all your Christmases be white

**D**                      **Em**                      **A7**  
I m dreaming of a white Christmas  
**G**                      **A7**                      **D**  
Just like the ones I used to know  
**D**    **D7**                      **G**                      **Em**  
May your days may your days may your days be merry and bright oh  
**D**                      **A**                      **D**  
And may all your Christmases be white
