

The Game Played Right

Emarosa

Hello guys, this is a shot at making Chords for The Game Played Right. It is infact standard tuning for this one but you will need to CAPO 1ST FRET. Originally they play in half-step but for the purpose of the acoustic version here, this works just as well and is right on key with the original and Jonny s singing. Hope its good enough for you. Enjoy ;)

*I appologize in advance if I got any of the names of the chords wrong.

That is basically it throughout the whole song. I'll keep trying to work on the bridge

but if you listen closely, it's the same chords, just the progression may be changed up.

Hope this is fun for you.
