The fire that they said would burn just lights up the way  
I lie in the place where I fell  
And three is always nine day one  
That wont go away  
Till you bring an end to my hell

But you came along on a glorious day  
By the time that you left I was crawling again  
Yeh you came along on a glorious day  
Now I want you to save me again

Let them all keep their plans  
Cos all I want is in my hands  
And I cant look down  
Back then I had it all, now I want it back that s all  
And I cant get out

Ooh ooh ohhh [etc]

You came along, on a glorious day  
By the time that you left  
I was crawling again  
Yeh you came along on a glorious day  
Now I want you to save me again  
Now I want you to save me again  
Now I want you to save me again

just play along, you might have other closer chords than i did. submit it and correct mine.
