

Gravity
Embrace

Artist: Embrace
Song: Gravity

This song is amazing it was written by coldplay but they gave the song to embrace to record as they said it sounded more embrace then they knew what to do with.

The song is in the key of D# and you can play it more easy with a capo on fret 3, I will give you the chords to play for with and with out a capo.

NOTE: The chord on top is the note sounded and played with out a capo, the chord below is the chord played with a capo.
