Oh, I mean really, really feel
It all, it all

Oh please God, give me something
Give me something
I can believe in
Give me something
       F#m
Come on, give me something
Give me something
I can believe in
Oh yeah, you got people
But people change their minds
And people change their hearts
With the seasons
And then the songs
They too must end
                  F#m
So tell me now, my friend
Where does that leave us?
Give me something
        Bm
Come on, give me something
              F#m
Oh please God, give me something
     D A
I can believe in
Give me something, anything
Give me something

Give me something
