Hallowed Be Thy Name
Emerson, Lake & Palmer

[Verse]
```
                Em
There may be an  Om  in  moment
                        Em
But there s very few folk in  focus
        C              Am7            Em
Not the first, not the last, not the least
                  Em
You needn t be well to be wealthy
                      Em
But you ve got to be whole to be holy
            C              Am7                Em
Fetch the rope, fetch the clock, fetch the priest
```

[Bridge]
```
          Am
Oh this planet of ours is a mess
                    Em
I bet heaven s the same
          Am
Look the madman said  Son
                              B7
As a friend tell me what s in a name.
Am7              Em
Hallowed be thy name
```

[Verse]
```
                Em
I give you the state of statesmen
                      Em
And the key to what motivates them
        C          Am7            Em
On the left, on the right, on the nail
                      Em
Still I don t see a man in a mansion
                  Em
That an accurate pen wouldn t puncture
        C            Am7          Em
Go to town, go to hell, go to jail
```

[Bridge]
```
            Am
And there s bars and saloons
                                  Em
Where the jukebox plays blues in the night
          Am
Till the madman says  Son
```

```
                                              B7
Time to go we could both use some light
A7                     Em
And thy will be done

[Verse]

                 Em
We live in an age of cages
                      Em
The tale of an ape escaping
        C                Am7           Em
In the search for some truth he can use
            Em
But many a drunk got drunker
                Em
And mostly a thinker, a thunker
          C                Am7           Em
Set the place, set the time, set the fuse

[Bridge]
     Am
The optimist laughed and the
                         Em
pessimist cried in his wine
          Am
And the madman said  Son
                                     B7
Take a word they ll all wake given time
Am7               Em
Let thy kingdom come

[Interlude]

Em    Em    Em    Em
C     Am7   Em    Em

[Verse]

                 Em
The madman and I got drunker
                      Em
 Til both thought the other thank you
        C                Am7           Em
And we laughed all the way to the stars

[Bridge]
     Am
The optimist asked for a taste
                      Em
of the pessimist s wine
         Am
And the madman said  son
                                     B7
How do you feel?  I said  Me? I feel fine
```

```
Am7                       Em
Lead me into temptation
          Em
Into temptation
                  Em
I said into temptation
              Em                  Em
I need my allocation, of recreation
              Em                  Em
I want a revelation, in degradation
        Em                    Em                        Em
No hesitation, give me variation, give me inspiration
```
