Willow
Emilie Autumn
         F#
Willow, weep for me
         C#
Bow your tallest tree
            G#m
Down to the infamous hands
          В
Of someone no one understands
         F#
I m not unique in this
              C#
It s based on none but my mistake
          G#m
At night I lie awake
                                C#
Thinking of all the hearts I d happily break
     G#m
It s cruel, I know
At least they tell me so
             G#m
Well someone lock me up and throw away the key
Because I m not ashamed, oh no
    C#
Oh, willow
       F#
That I only write love songs
To those whom I don t love
       G#m
I only reach for him
Who s tied to someone else s glove
             F#
That which I hold inside
        C#
Which I admire and deride
Which I protect and hide is yours
        F#
Willow, weep for me
            C#
```

Don t think I don t see

F#

```
G#m
This life I m living in two
                В
                                C#
But still it s something I must do
          F#
I m not unique in this
          C#
Nor am I special, sweet or kind
I court a thousand smiles
Yet I keep my own to hide behind
      G#m
It s cruel I know
               C#
At least they tell me so
              G#m
                                              F#
Well someone lock me up and throw away the key
Because I m not ashamed, oh no
     C#
Oh, willow
        F#
That I only write love songs
     C#
To those whom I don t love
        G#m
I only reach for him
Who s tied to someone else s glove
That which I hold inside
         C#
Which I admire and deride
                             C#
Which I protect and hide is yours
 G#m
                 F#
Slander and dissention
        C#
They re parlour games to me
                               C#
Papers overrun with lies too mad to mention
You say they never hurt you
```

No consequence, I m happy

But oh no, that s not true

We re much too far above it all

```
Ebm
These wicked pastimes take their toll
G#m
These tyrant vices break your soul
Ebm
Deliver me from all I am
F#
```

And all I never want to be

And all I never want to be

I love you (Oh willow, willow, willow)
C#

Doubt me not
