Emily Elbert

Artist: Emily Elbert

Song: Stars

Tabbed by: Jessie :)

This song is really relaxed so these chords are just a general guideline.

I got these chords by listening to this version of the song:

<http://www.youtube.com/watch?v=th3GMejUm3I>

Suggestions:

-The guitar can fool around by adding dominant 7ths to the minor chords

-or a major 7th to the G chords

-or switching some of the Bm s with D/F# s :P

+Classical guitar recommended.

-The bass can have fun dodging root notes and emphasizing dissonance

-particularly the Eb during the chorus :D

+Upright bass recommended.
