Dm7
Tell me what to do,
E Am

Fmaj7
Tell me what to say,
Dm7
Don t matter if it s true,
E

==> For Em s verses it s just the same four chords (Am Fmaj7 Dm7 E) over and over <==

[Verse 1]

I used to be the type of kid that, would always think the sky is falling
Why am I so differently wired? Am I a martian?
What kind of twisted experiment am I involved in
Cause I don t belong in this world
That s why I m scoffing at authority, defiant often
Flying off at the handle with my mom, no dad
So I m non-compliant at home, at school I m just shy and awkward
And no I don t need no goddamn psychologist
Tryna diagnose why I have all these underlying problems
Thinking he can try and solve em, I m outside chalking up
Drawings on the sidewalk and in the front drive talking to myself
Either that or inside hiding off in
The corner somewhere quiet, trying not to be noticed
I m crying and sobbing, I had a bad day at school so I ain t talking
Some cocksucker shoved me into a fucking locker, cause he said I eyeballed him

[Bridge]

Am Fmaj7 Dm7 E Am
And if you fall, I ll get you there,
Fmaj7 Dm7 E Am

I ll be your savior from all the wars

Fmaj7 Dm E
That are fought inside your world,
Am Fmaj7 Dm7 E
Please have faith in my words cause

[Verse 2]

I used to be the type of kid that, would always think the sky is falling
Why am I so differently wired in my noggin?
Cause sporadic as my thoughts come, it s mind boggling
Cause I obsess on everything, in my mind small shit bothers me
But now my father, he said Sayonara, then split
But I don t give a shit, I m fine long as
There s batteries in my Walkman, nothing is the matter with me
Shit look at the bright side at least I ainâ€™t walking
I bike ride through the neighborhood of my apartment
Complex on a ten speed which I ve acquired parts that I
Find in the garbage, a frame and put tires on it
Headphones on straight ahead and kids try to start shit
But if this all there is for me, Life offers
Why bother even trying to put up a fight, it s nonsense
But I think a lightbulb just lit up in my conscience
What about those rhymes I ve been jottin
They are kinda giving me confidence
Instead of tryina escape through my comics
Why don t I just blast a little something like Onyx
To put me in the mood to wanna fight and write songs that
Say what I wanna say to the kid that said that I eyeballed him
Grab hold of my balls like that s right fight s on bitch
Who would ve knew from the moment I turned the mic on that
I could be iconic, in my conquest
Word to Phife Dog from a Tribe Called Quest

[Verse 3]

I used to be the type of kid that, would always think the sky is falling
 Now I think the fact that I m differently wired s awesome
 Cause if I wasn t I wouldn t be able to work
 Words like this and connect lines like crosswords
 And use my enemy s words as strength
 To try and draw from, and get inspired off em
 Cause all my life I was told and taught I am not shit
 By you wack fucking giant sacks of lying dog shit
 Now you shut up bitch I am talking
 Thought I was full of horseshit and now
 You fucking worship the ground in which I am walking
 Me against the world so what? I m Brian Dawkins
 Versus the whole 0-16 Lions offense
 So bring on the Giants Falcons and Miami Dolphins
 It s the body bag game bitch I m supplying coffins
 Cause you dicks butt kiss, a bunch of Brian Baldingers
 You gon die a ball licker, I ve been diabolical
 With this dialogue since 99 Rawkus
 You don t respect the legacy I leave behind y all can
 Suck a dick the day you beat me pigs ll fly out my ass
 In a flying saucer full of Italian sausage
 The most high exalting and I ain t halting
 Till I die of exhaustion inhale my exhaust fumes
 The best part about me is I am not you
 I am me I m a fire marshall and this is my
