

## Next To You

### Emma Blackery

The chords she also posted in the video of it on her 2nd channel Blackerytv.

This is the demo version she first posted in case she changes it if she does a final version some time... Enjoy!

Capo 2nd

Verses - **C, Am, F, G**

Chorus **F, C, Am, F, G**

We don t wanna open the curtains  
We just wanna lay in the dark  
Cos letting in light only hurts our eyes  
And the morning always breaks my heart

I ve never felt as right as I do  
When I m waking up next to you  
I ve never felt as strong as I do  
When I m waking up next to you

It took years to find you  
But I never really thought I would  
You are my sunrise  
Even in the middle of the night

I ve never felt as right as I do  
When I m waking up next to you  
I ve never felt as strong as I do  
When I m waking up next to you

(Chorus)

And they say good things come to those who wait  
I ve spent my life following fate  
And it s led me here to you  
And when I met you I just knew  
That all the years that I spent searching  
Are just years that I spent learning  
So I could bring myself to you  
And when I met you I just knew

I just knew

I never feel as right as I do  
I ve never felt as strong as I do

(Chorus)

And they say good things come to those who wait  
I've spent my life following fate  
And it's led me here to you  
And when I met you I just knew  
That all the years that I spent searching  
Were just years that I spent learning  
So I could bring myself to you  
And when I met you I just knew
