

## Villains Pt 1

### Emma Blackery

[Verse 1]

I am a maverick  
Built to create, designed to destroy  
And I am the quiver in your bones when you get annoyed  
And I am the nightmare  
These monsters I hold, I m bringing them home  
And I am the shiver in your lungs when you re out in the cold

[Pre-Chorus]

But my body is bored of being torn apart  
And I ve done this to myself  
So if you re thinking of stealing the last love I have  
Then you re thinking of somebody else

[Chorus]

Turn the lights down low  
If this is how I go  
I ll tell them that the villains on my list  
They re what turned me into this  
So I ll go  
I m better off alone  
Run and tell them that the villains on my list  
They re the reason I ve been pulled so low
