Emma Blackery

[Verse 1]

F **Dm**
I am a maverick

Built to create, designed to destroy
F **Dm** **Am**
And I am the quiver in your bones when you get annoyed

These monsters I hold, I m bringing them home
F **Dm** **Am**
And I am the shiver in your lungs when you re out in the cold

[Pre-Chorus]

F **Dm**
But my body is bored of being torn apart
Am
And I ve done this to myself
F **Dm**
So if you re thinking of stealing the last love I have
Am
Then you re thinking of somebody else

[Chorus]

F **Am**
Turn the lights down low
Am
If this is how I go

I ll tell them that the villains on my list

I m better off alone

[Bridge]

I don't feel anything
Because I became possessed and obsessed with the idea of revenge
Where you going now?
Everybody's looking at you
Cause you set yourself on fire just to light up the room
F Dm Am

[Chorus]

Turn the lights down low
If this is how I go
I'll tell them that the villains on my list
They're what turned me into this
So I'll go
I'm better off alone
Run and tell them that the villains on my list
They're the reason I've been pulled so low

[Outro]

If this is how I go
I'll tell them that the villains on my list
They're what turned me into this
Yeah I know
So welcome to the show
