I don't care, I'm in too deep

You're like a riptide dragging me away

Adrenaline kicking and my heartbeat thumping

Riptide underneath the waves

Gotta love this riptide

Dm

F

C

G

Gotta love this riptide

Nothing ever gonna feel so fine

I finally found a little piece of paradise

It's like I'm living in a different life

The sun is always shining

See the shoreline fade from view

Treading water just me and you

There's nothing else about to do

It feels just like Im flying

When you touch me, when you hold me
I dont care, Im in too deep

Youre like a riptide dragging me away
Adrenaline kicking and my heartbeat thumping
Riptide underneath the waves
Hold on tight cause its the start of something

Riptide washing me away
A force so strong that I just cant fight it
Riptide, love it when you say
Feels so good, I never thought Id find it

Cant hear it, cant see it
Invisible but you believe
This power, this feeling
God, I love the way its taking over me
I feel it, I need it
Impossible to let it be
You know that I want it
Youre the only one whos going to set me free

Riptide dragging me away
Adrenaline kicking and my heartbeat thumping
Riptide underneath the waves
Hold on tight cause its the start of something

Riptide dragging me away
Adrenaline kicking and my heartbeat thumping
Riptide underneath the waves
Hold on tight cause its the start of something

Riptide washing me away
A force so strong that I just cant fight it
Riptide, love it when you say
Feels so good, I never thought Id find it

I gotta love it, riptide
I gotta love it, riptide
