

Hold On

Emmy the Great

HOLD ON - Emmy The Great

Tabbed by: MajesticMott

Tuning: Standard - EADGBE

The song repeats the same chords throughout so I've only tabbed the first verse.

If you like this song and haven't all ready heard it you should check out her cover of The Wave Pictures song LONG ISLAND.

Intro - C F C G

 C F C G
If the water comes tomorrow
 C F C G
And everything is drowned
 C F C G
Well, pack your stuff and what you love
 C F C G
And head for higher ground

If the morning finds a storm cloud

Gathered overhead

And hollow horses full of men

All wrapped in bows on outdoor steps

Just, sing the songs you've always sung

Just finish all that you've begun

And hope that one day, they day will come

You'll see the ground again

If you wake up feeling lonely

Sleeping through the day

You hope a truck will knock you up

A brand-new looking face

If you thought you would be different

From what you have become

You wish you'd never stuck your head

Out between your mother's legs

Just, hold on to what you own

Hold on to what you own

Hold on to what you own

Well, I don't want to see you feel this way

Just want to see you smile again

Smile again

Smile Again

Hold on to what you own

If the water comes tomorrow

And everything is drowned

Well, pack your things and come with me

We ll head for higher ground

Enjoy,

Matt
