

**Heartbreak Hill**

**Emmylou Harris**

Heartbreak Hill

**D**

Long, long time ago when we were young

**G D**

You swore to me I would be the one

I would be the one you loved but we had to part

**G D**

You asked me to wait for you to keep you in my heart

**A7 D**

To keep you in my heart

Chorus:

**G**

**D**

Night after lonely night Iâ€™m waiting for you still

**A7 D**

High above the lights of town here on Heartbreak Hill

Now maybe I am the foolish kind to think of you so long

Have you found another love am I still the one

Am I still the one for you but you re far away

Do you ever dream of coming back to me someday

Back to me someday

Chorus

**A**

**D**

**A**

**D**

On Heartbreak Hill alone at night I think of how you held me tight

**G D A7 D**

And wonder if I ever will see you again on Heartbreak Hill

Oh Lord if I only could go back in time enough

I d hold you in my arms again and never let you go

Never let you go my love and leave me far behind

High upon this lonely hill were you swore to be mine

You swore to be mine

Chorus
