

Shades Of Love

Empty Trash

Hi

I have been searching for this song on the internet for a while now and I thought the ones that I could find were incorrect on parts of the verse or chorus so I thought I would submit one. As you can see the intro is missing. I will submit the intro once

I have corrected my version of it. In one of the verses as well there is a picking part which I have not yet figured out so if anyone can help me with it just or just want to chat just email me or add me to your friends list: cazchadwick@hotmail.com
