It s a new day, a new life for you

.....

Can you feel

The future in your heart

And can you live for

Every piece of light

When guns are barking

My words are bullets

Whisper my dream,

A cry in their heads

But who s to blame

Give me your pain

Choose a new name
Close your eyes and
Start again

It s to late for regrets now
It s a new day, a new life for you

It s to late for regrets now
It s a new day, a new life for you
