

System

Enter Shikari

this is my first tab but yeah

There was a house in a field

Cm

on the side of a cliff

And the waves crashing below were just said

A#

to be

G#

A

myth

So

Cm

they ignored

A#

the

G#

waters from the

Cm

ships in the docks

G#

Now the house

Cm

on the cliff is

G#

the wreckage on the rocks

There was

Cm

A house in **A**

G#

field on the

Gm

side

D#

of a cliff

G#

And the

Cm

waves crashing

D#

below were just

G#

said to be a myth

So they ignored the waters from the ships in the docks

Now the house on

Cm

the cliff is the wreckage on the rocks

C

Nothing can fix the buildings flawed foundation

The scaffold in its stilts were

Fm

the laws legislation

This house was doomed but they didnt care

Theyâ€™d invested in the system that was beyond repair

When I was little I

D#

dressed up as an astronaut

And explored outerspace

I dressed

G

up as a superhero

And ran about the place

I dressed up as a fireman

And rescued

C

those

Cm

in

need

I dressed up

G#

as a doctor

And cured every disease

It was crystal clear to me back then that the

Cm

only problems that I could face

Would be the same problems that affect us all

But

D#

of

Gm
course this sense of common existence would suck down me in an instance

As

Cm
though from birth I could walk but I was forced to crawl

So this

G#
is such an exciting time to be

C
alive

Our generations

D#
gotta fight to survive

G#
Its in

Gm
your hands now

G#
our future, our future, our future
