

One Song

Envy

[Nico Sereba]

All I need in this life is a couple real friends
 World peace, peace of mind, love from my fam
 Pretty girl and she love me for who I am
 Mic in hand to show the fans my appreciation (I love em)
 I need money to build a house down in Africa
 My family s depending on me, I need to stack it up
 How? Maybe a track that goes platinum
 Catchy beats, that is non , Nasty Kutt master them
 I see you got a lot on your mind, well me too
 I find it hard to let it out just like you
 When you can t let it show, I know how it feels
 Me and you, you and me, we go together beautifully

[Chorus]

(All I need is one song) **Em**
C
 To give my family that feeling
G **D**
 I m never gonna leave em, I love em
