

Stars And Midnight Blue

Enya

G C D G C D
Memories we share together, moments no one else can know

C D C D G
I will keep them close to me, never let them go

G C D G C D
Once you filled my hands with roses-then you gave your heart to me

C D C D G
When a kiss had followed, this Love was meant to be

Time goes by, and the snow is drifting- slowly in the sky cold, cold night

D C C D
As you lie beside me, I can hear your heartbeat

G C D G C D
You have lost yourself in dreaming, I have lost myself in you.

C D C D G
Now we lie beneath the sky, stars, and midnight blue.
