Don't Suppose
Erasure

Intro: **G C G C**

```
G            C                G         C
I don t suppose it s gonna do any good
     Am                C       G     C
If I sit down and write you a letter
G            C                G         C
You made it plain and I guess, I understood
        Am             C        G      C
There s no way that things can get better
```

```
        Am
I was never so wrong
           D                 Em     D         C
I thought we would go on forever, always together
          Am                          D
Now it s hard to believe you would walk out
               Em    D               C
And leave me crying, feel like I m dying
```

```
G     Em  C  D       G
Dream maker, heart breaker
Em          C             D
I would do anything you say
G     Em  C  D       G
Dream maker, heart breaker
Em              C           D
You would take everything away
```

G C G C

```
G            C                G         C
I ve never felt like I feel lonely tonight
        Am            C           G   C
Like a river so deep filled with sorrow
G            C                G         C
I won t be sleeping, I won t turn out the light
         Am           C       G   C
I ve got heartache enough for tomorrow
```

```
        Am
And I know, I should learn
          D                 Em    D
But wherever I turn you find me
          C
```

Always remind me

```
G       Em   C   D           G
Dream maker, heart breaker
Em            C                 D
I would do anything you say
G       Em   C   D           G
Dream maker, heart breaker
Em                  C               D
You would take everything away

          Am
And I want you to know
            D                   Em      D
That it s hurting me so inside me
              C
Need you beside me

G       Em   C   D           G
Dream maker, heart breaker
Em            C                 D
I would do anything you say
G       Em   C   D           G
Dream maker, heart breaker
Em                  C               D
You would take everything away
```
