All For Love
Eric Carmen

All For Love

```
F         Bb
Love was in her heart but I had dreams to find before I could see
         F                            C
I asked her if she d wait for me but I was gone too long
F          Bb
Tears were in her eyes, she said I took our love and threw it away
       F                  C
And nothin  I could do or say  could bring it back again

A7      Dm                     Bb               C
I was tryin  to be somethin  more than the man I had come to be
A7           Dm             Bb
I never meant to leave her sad and lonely if only she could see
```

Chorus
```
        F  m7
I did it all for love, all for love
     Bb                      C
 Cause nothin  really matters if it s strong enough
F        Am7
All for love, all for love
   Bb                    C
No, nothin  really matters if you ve got enough
```

```
She walked out that door and all my dreams went with her into the night
I wondered how a love so right could ever slip away
Love was in her heart but I had dreams to find before I could see
That somewhere deep inside of me she ll always be the one

I was tryin  to be somethin  more... +  Chorus
```
