

If The Ocean Was Whiskey

Eric Dodd

Whole song is basically the same.

D G D

D A D

(D) (G) (D)
If the ocean was whiskey and the sand was cocaine
(D) (A) (D)
I'd be in Mexico feeling no pain

That's the rhythm to an extent. Just match that chord pattern to the rest of the song including the chorus and bridge. Apparently all tabs have to be at least 300 characters long so I guess I'll just keep typing because I already explained the whole song cause it's really simple. Dadadadadadadadada wasting characters away...
