

If You Met Me First
Eric Ethridge

[Intro]

F#m D A E
F#m D A E

[Verse]

Why do you look at me like that.
Your eyes saying things that they can t take back.
Feels good. Feels right. It don t help.
Every night when the clock gets loud,
I hate that I know what you re doing right now.
Your arms around someone else.

[Pre-Chorus]

Every time I m next to you, I swear that you can feel it too.
How long can we do this to ourselves?

[Chorus]

In a different place and time,
maybe in another life, I bet that baby you and I would have worked.
We ll never get the chance to try.
And what makes it worse is
You wouldâ€™ve loved me, if you met me first.

[Verse]

I can t even count all the times I ve thought
About the line I d never cross.
But I ve crossed that line in my head.

[Pre-Chorus]

I can t steal you from somebody else, just to have you to myself.

D **E***
My heart don t wanna hear me tell the truth.

[Chorus]

D **A**
In a different place and time,
E **F#m** **D** **A** **E**
maybe in another life, I bet that baby you and I would have worked.

You wouldâ€™ve loved me, if you met me first.

[Bridge]

If you do or if you don t, I don t ever wanna know for sure.

maybe in another life, I bet that baby you and I would have worked.

You wouldâ€™ve loved me, if you met me first.
