

Not There Yet  
Eric Hutchinson

CHORUS :

D                                E                                A  
I don t want to work anymore

D                                E                                A  
I just want to live instead

D                                E                                F#m  
Everyone is saying I m all grown up

D    E                                A  
I ve come a long way, but I m not there yet

D    E                                A  
I ve come a long way, but I m not there yet.

VERSE 1:

**F#m**  
Where did the summer go?  
**A D A**  
I was just hitting my stride  
**F#m A D A**  
It's this insanity, takes me along for the ride  
**Bm E**  
I swam the oceans and the seven seas  
**F#m A**  
Knowing that fate would strike eventually  
**D E A**  
You've got to hit rock bottom if you want to come out on top

CHORUS :

D                                E                                A  
I don t want to work anymore

D                                E                                A  
I just want to live instead

D                                E                                F#m  
Everyone is saying I m all grown up

D                                E                                A  
I ve come a long way, but I m not there yet

D                                E                                A  
I ve come a long way, but I m not there yet.

VERSE 2 (same chords as verse 1):

Where did the winter go?  
I just got used to the cold  
And it s immaturity, keeps me from getting too old  
Now I saw a snowfall on a thousand towns  
With a sense of purpose I had just been found  
You ve got to run real far before you ever feel close to home

CHORUS

**D**                    **E**                    **A**  
 I don t want to work anymore  
**D**                    **E**                    **A**  
 I just want to live instead  
**D**                    **E**                    **F#m**  
 Everyone is saying I m all grown up  
**D**    **E**                    **A**  
 I ve come a long way, but I m not there yet  
**D**    **E**                    **A**  
 I ve come a long way, but I m not there yet.

BRIDGE:

**D**   **E**  
 You know I m not there yet  
                                  **F#m**    **A**  
 Been working myself into a lonely state  
    **D**   **E**  
 You know I m not there yet  
    **A**                    **D**  
 Been breaking my back to find another way  
                                  **Bm**  
 It s been a long time coming  
                  **E**    **A**  
 I deserve to take a holiday

CHORUS

**D**                    **E**                    **A**  
 I don t want to work anymore  
**D**                    **E**                    **A**  
 I just want to live instead  
**D**                    **E**    **F#m**  
 Everyone is saying I m all grown up  
**D**    **E**                    **A**  
 I ve come a long way, but I m not there yet  
**D**    **E**                    **A**  
 I ve come a long way, but I m not there yet.
