Intro: **G#m** - **B** - **F#** - **E** (2x)

```
     G#m                    B
You hold your head up to the sky
       F#          E       G#m      B
Ya say What kind of blue are you?
F#      E
Are You?
         G#m              B
Then you ride a pony  round and  round
       F#          E       G#m         B
It s digging a hole right through,
F#         E
Right through
       G#m              B
You stumble down a yellow brick road
F#              E            G#m      B
Spinning your shoes in the air
         F#        E
The air
        G#m                        B
Then you, hold your breath and count to nine
F#                   E              G#m      B
Hoping that soon somebody will find you
     F#       E
Find you
```

[Chorus]
```
E                      B           F#
Go on, go on, go on, the stars are watching
E                             B          F#
Just say, just say, just say, what you re feeling
E
You know, you know, you know,
B                    F#           C#m E
You gotta take a bow and do it your way
B        F#
It s ok -ay
C#m              E
La dada dadada dadada
B        F#
It s ok -ay
C#m              E
La dada dadada dadada
```

[Continue **G#m** - **B** - **F#** - **E** pattern, it repeats through the verse]

You re fifteen miles over the speed
You re going fast as ya can off to your daydream

Within your ruby shoes you, deserve a smile with no regret
