Am7   D

That we could be friends

[Chorus]

Em   Bm7 - Am7 :|| - D

God can you whisper in her ear
Anywhere on the way to her car
Before the wind blows her to far
Away from my heart
Can you whisper in her ear
Anytime while she  s lying on her bed
Can you tell her everything that I said
Everything that I said

How do I try and explain everything
When nothing I say seems to fit
How do I get her to pick up the phone
Baby how did we ever get like this

What kind of man lets love slip away
And leave such a good thing behind
I  m holding hands pressed praying to find
A way to fill in this hole I have inside

(Repeat Chorus)

Oooo  |Can you whisper  |
