[Verse 1]

Bm
Oh, another few years wasted
G
On the same old tears I've tasted
D
Time and time and time again
A F#/A#
Oh, when will this cycle end?
Bm
It's all part of the story
G
All the misery and glory
D
All the enemies and friends
A F#/A#
And those with us until the end

[Chorus]

Bm
Here's to the secrets we can't keep
G
Here's to the words we cannot speak
D
Here's to the nights that we forget
A F#/A#
So beautifully tragic
Bm
Here's to all those who wish us well
G
And to the rest, you can go to hell
D A
Here's to the memories that make me fucking sick
F#/A#
Beautifully tragic

[Verse 2]

Bm G
All of the moments suspended in time
D

We wish we could relive, rewind
The clock and let me live it up again
Live it up again!
There is no pause, so we live in a time
Not realizing what's passing by
I'll take what we share to the end

[Chorus]

Here's to the secrets we can't keep
Here's to the words we cannot speak
Here's to the nights that we forget
So beautifully tragic
Here's to all those who wish us well
And to the rest, you can go to hell
Here's to the memories that make me fucking sick
Beautifully tragic
