

Gorgeous Nightmare
Escape the Fate

Cm **G#** **G**
I ve got another confession to make
Cm **G#** **G**
So complicated let me try to explain
Cm **G#** **G**
Don t want this feeling to go away
Cm **G#** **G**
So it stays, it stays, it stays, it stays

Is it the way that you talk
That s causing me to freak?
Is it the way that you laugh
That s making my heart beat?
Is it the way that you kiss?
It s gotta be the way that you taste, you taste, you taste, you taste

G# **G**
You re such a gorgeous nightmare
Cm **Bb**
Old habits never seem to go away
G# **Fm**
You make me feel brand new yeah
G **G7**
We resurrect it s like I ve come back to life
Cm
I feel so alive, I feel so alive!

First impressions are hard to erase
It s in my mind and it just won t go away
Maybe I m playing my cards way too safe
I ve gotta change, change, change, change

Is it the way that you feel against my body?
Is it the way that you act so damn naughty?
Is it the way that you shake
When your hips move through the bass, the bass, the bass, the bass?

You re such a gorgeous nightmare
Old habits never seem to go away
You make me feel brand new yeah
We resurrect it s like I ve come back to life

I feel so alive, I feel so alive...
