

Into Space
Eskobar

Eskobar - Into Space
(Birming/Belqvist/ZÃ¶ll)
Submitted by Halfdan Baadsvik

I just got these chords mailed to me by the three
wise men themselves, so they should be correct.

A Em D G

F# **B** **F#** **B**
Some go into space to find another race
F# **B** **F#** **B**
Some say it s a waste and some they rest their case
F# **B** **D**
I ve got love in my own place To me it s a waste this
B
chase
F# **B** **D** **B**
I find no trace in you, in you

A
You gotta take your time, free your mind
Em **D**
Leaving you and me behind Don t you ever cross that line
G
To where you can t let go
A
You have to open up, step inside
Em
A universe within you ll find You don t have to travel
D
Skies
G
To be aware and know

Somewhere in the haze I remember a kiss with a taste
Remember the days when this was a beautiful place
And through this journey in space it s me who got me amazed
I find no values to prace in you, in you

To make the chords in the chorus less boring, try to switch between major and
sus2 on the A and D, major and 7 on the G
and minor and minor7 on the Em. Try to make it sound like the riff. I ll submit
it (the riff) along with all matter of guitar on the record as soon as I tab it
out.
