Em **D**
The way I saw you dancing

C
In the rain

Em **D**
The way I held your hand

C
And left in pain

Em **D**
The way you said you

C
Always remember the same

Em **D**
Don t let it end

C
Oh please explain

Am **D**
All what you said tonight

Em **Bm**
You always change the words for now

Am
And again

D
There s nothing left to say

Em **Bm**
If only I knew what I must say

Am **D** [**Em** **D** **C**] x2
Now the night s away

Em **D**
The way I saw you dancing

C
In the rain

Em **D**
The way I saw you cross your legs

C
And screamed

Em **D**

The way the witness

C

Dripped out of my face

Em

It leaves me

D

Oh so sensual

C

It's out of grace

Am **D**

And all I ever want

Em

To use you up

Bm

Am

And break your heart again

D

And all I ever said

Em

Just hold me now

Bm

Am

And feel the same again

D

But I'll just drop you dead

Em

Again

D **C**

And again... and again...
