**F**  
My friend, you've been looking so weary  
**C** **Am**  
You say you're fine, but I know you're not, clearly  
**F** **C**  
Why don't you breathe a little but with me?  
**F**  
I don't know what's going on  
**C** **Am**  
But I know when something's wrong  
**F**  
Why don't you put a little faith in me?

[Pre-Chorus]

**F** **G**  
Oh, we're just human beings  
**Am** **G**  
No good at being good at things  
**F** **C**  
Unsure of what the future brings us  
**F** **G**  
But at least there's you and me  
**Am** **G**  
We're mindless dreamers smartly teamed  
**F** **C**  
To face the shit we dream of

[Chorus]

**F**  
We can build it brick by brick  
**C** **Am**  
Taking life an inch by inch  
**F**  
I can help you fix your shit  
**C**  
I know we'll still be friends  
**F**  
Life ain't always roses, but  
**C** **Am**  
Even when the road gets rough  
**F**  
You'll never have to face too much  
**C**  
Alone

[Post-Chorus]

**F**  
And I know you got friends  
**C** **Am**  
Are they treating you well?  
**F**  
You don't need to pretend  
**C** **Am**

You can lean on me not someone else

**F**

And I know you got strength

**C Am**

You can handle yourself

**F**

Ain t it easier when

**C Am**

You can lean on me not someone else
