Believe In Anything:

Verse/chorus/intro/outro:

**A E G D**

**F A F A**

Repeat until end of the song and vary it up with fingerpicking/plectrum/full chords/powerchords/arpeggios to make it sound halfway decent on an acoustic guitar.

From the fantastic new album Remain in Hope (Wrath Records), check the wonderful four piece out on their website <http://www.eurekamachines.com/new/>
