```
Em                                        Am
I m not a fan of puppeteers but I ve a nagging fear
                                Em
Someone else is pulling at the strings.
Em                                              Am
Something terrible is going down through the entire town
                                  Em
Wreaking anarchy and all it brings

   Em                    Am
I can t sit idly, no, I can t move at all
   Am                                    B
I curse the name, the one behind it all...

Em
Discord, I m howlin  at the moon
    Am                            Am
And sleepin  in the middle of a summer afternoon
Em
Discord, whatever did we do
   Am                      B
To make you take our world away?

Em
Discord, are we your prey alone,
   Am                            Am
Or are we just a stepping stone for taking back the throne?
Em
Discord, we won t take it anymore
   Am                B
So take your tyranny away!

Em                                            Am
I m fine with changing status quo, but not in letting go
                                Em
Now the world is being torn apart.
   Em                              Am
A terrible catastrophe played by your symphony,
                          Em
What a terrifying work of art!

   Em                    Am
I can t sit idly, no, I can t move at all
   Am                            B
I curse the name, the one behind it all...
