**FM**  
But I shouldn t even bother  
**E**  
Because you made me so complete dear, but you left me so alone here  
**D/F**  
Hang a noose for my new sinner somewhere everyone can see it  
**A**    **B**  
Won t you beg me and then tell me how to love you  
**C#M**  
Like anybody else would  
**E**  
I know you re risking failure (risking failure)  
**A**  
Go run for cover (for how long)  
**B**    **C#M**                      **E**  
You better start to love her so much you re moving on and on  
**FM**                      **E**    **FM**  
Now there s a whole wide world...that wants to know  
**E**  
Have cheap hotels lost their turn-on? she s bathing in the neon  
**FM**  
And she s polluting all the airways while I m passed out in the hallway  
**E**  
And you left me so in love here, you left with so much hate dear  
**D/F**  
Was I creating only chaos? this world lives just fine without us? won t  
you?  
**A**    **B**  
Beg me and then tell me how to love you  
**C#M**  
Like anybody else would
