

Who We Are
Evans Blue

These are chords for the song that I made up myself by ear, they are not perfect, but they are good enough for the song. This does not include the riff in the intro.

Verse 1:

G **F**
I lie awake to the sound of it all

G
Will it ever reach me?

F
As I wander around this whole

G
Will the burden break me?

D#/Eb
Have the words been made to take the pain?

G
When the truth cannot be safe

D#/Eb **F**
Can the truth remain when everything, everything s okay?

D#/Eb
And now the world surrounds us

Will we ever live?

Chorus:

Bb **F**
Now here we are, going down, down, down

G **D#/Eb**
Will we turn this around or fall apart

Bb **F**
Now here we are, looking down, down, down

G **D#/Eb**

We can turn this around; it s who we are

Verse 2:

G (hold)

So I try, break habit, and fall

The walls consume me

Rely on having it all

And it all goes through me

Have the words been made to take the pain

When truth cannot be safe

Can the truth remain when everything, everything s okay

And now the world surrounds us

Will we ever live

Chorus:

Now here we are, going down, down, down

Will we turn this around or fall apart

Now here we are, looking down, down, down

We can turn this around; it s who we are

Bridge:

Bb **F**

And all you are

G

You cannot fall

D#/Eb

You move the world

Bb

You have it all

F

You cannot fall

G

D#/Eb

You cannot fall

Bb (hold)

F (hold)

And now here we are, going down, down, down

G (hold)

D#/Eb (hold)

We can turn this around; it s who we are

Chorus:

Now here we are, going down, down, down
Will we turn this around or fall apart
Now here we are, looking down, down, down
We can turn this around; it's who we are

End On Bb
