Intro: **E5**

E5
Drag this neurotic to hysterics. Leave him barked and unfulfilled
D5 **E5**
holding inside outwardly patient till the time he ll call it.

Alluring exotic twisted hero. Leaving him more lonely still. He
D5 **E5**
waits around hes spun around and left without the power to stop

it. Peers dont know what they cant see. They cant see inside of
D5 **E5**
me. Its sickening how comforting the privacy of the mind can be.

Chorus:

B5 **A5** **E5** **B5**
How much longer will I try before I realize Im desperate in the
A5 **E5** **B5** **A5**
situation that im in again. Im exhausting yet another topic Ive
E5 **B5** **A5** **E5**
exhausted frequently with no regrets. Oh Yeah

Play this note a bunch of times:

E5
Abstruse and lacking rational but making so much sense somehow. A
D5
stone has blocked my hourglass no progress made not time s run
E5
out. Id almost rather have the latter. Save myself with sad
D5
defeat. A stone just broke my hourglass i peel the skin that had
E5
me trapped. Peers dont know what they cant see. They cant see
D5
inside of me its sickening how comforting the privacy of the mind

can be.

Chorus:
