Intro: **G#5**

**G#5**

Drag this neurotic to hysterics. Leave him barked and unfulfilled

**F#5** **G#5**

holding inside outwardly patient till the time he ll call it.

Alluring exotic twisted hero. Leaving him more lonely still. He

**F#5** **G#5**

waits around hes spun around and left without the power to stop

it. Peers dont know what they cant see. They cant see inside of

**F#5** **G#5**

me. Its sickening how comforting the privacy of the mind can be.

Chorus:

**Eb5** **C#5** **G#5** **Eb5**

How much longer will I try before I realize Im desperate in the

**C#5** **G#5** **Eb5** **C#5**

situation that im in again. Im exhausting yet another topic Ive

**G#5** **Eb5** **C#5** **G#5**

exhausted frequently with no regrets. Oh Yeah

Play this note a bunch of times:

**G#5**

Abstruse and lacking rational but making so much sense somehow. A

**F#5**

stone has blocked my hourglass no progress made not time s run

**G#5**

out. Id almost rather have the latter. Save myself with sad

**F#5**

defeat. A stone just broke my hourglass i peel the skin that had

**G#5**

me trapped. Peers dont know what they cant see. They cant see

**F#5**

inside of me its sickening how comforting the privacy of the mind

can be.
