Make me Believe

Verse

The words you ve said
really makes me mad
They re filling out my head
Can t forget the night (wow)
where you saved my life (how)
and where you brought me to shine (let it shine)

The last day of year

I felt a kind of fear
Cause I met you just a few times
Can t forget the way (how)
It s hard to say (wow)
how you blew my mind away (blow me away)

Bridge

But the fact is that you do
I don t know, what s the truth

Chorus x2

And I pray all the night
Make me believe that I can fly
Please show me the sky
again
And everyday, every single time
I find no words to say
you really make me crazy
I pray
Make me believe you feel the same

B - Part

I count the seconds, when you write
Want to make you smile, just for a while
I count the steps you take, when you come to me
you really hit me... you see

Verse

Just a few month ago
Maybe you still know
you embraced me so long
I felt your warmth (wow)
I smelt your scent (how)

I forgot where I belong (you are where I belong)

Bridge

and that s why I melt down

Why I want you for my own

Chorus
