

I Wont Have To Think About You
Even as We Speak

Bb Dm
She was out walking on a quiet night in the city
Gm Cm
Where all the little girls look so pretty
Bb Dm
Where the carbon dioxide fumes had turned the sky yellow
Gm Cm
Where one man led the parade and a thousand people followed

Dm
And he said

D#
Little girl come back to my room

F
Where I can show you the sky and show you the moon

Cm Dm
Show you the night by the naked glow of a 60 watt electric light

D#
And if you show me your charms

Cm
If you show me a vision

Bb
Then I won't have to talk to you

Cm Bb
Just look submissive and I won't have to think about you

Let me make your body shiver
Let take your charms and hang them from my rear-view mirror
I can show you love is tragic
Let me take you in my arms pretending that you're made of plastic

Dm
And he said

D#
Little girl come back to my room

F
Let me put you in your place

Cm Dm
Let me spread your lipstick all over your face

D#
And if you show me your charms

Cm
If you show me a vision

Bb
Then I won't have to talk to you

Cm Bb
Just look submissive and I won't have to think about you
