Unlike my other tabs for Ever Stays Red (before Your throne and no umbrellas) I didn't

for accuracy on this one. The chords/riffs were too complicated and didn't sound good as chords. Instead I just found the key of the song (D, like most of their songs), put the correct chords, and then replaced a lot of them with chords that fit better. e-mail me any questions/comments at grandalephruach@aol.com God bless!
