Nervous and Weird

From the Nervous and Weird EP and the World of Noise LP

**G F# F**

**D Bb F A**  
You know I want to be the way you want me to

**D Bb F A**  
Big hearted and tall enough to cover you

**D Bb F A**  
I would break in half if you said it out

**D Bb F A**  
Loud splinter out of myself just like mercury

**D Bb F A**  
I think it s better now than how it used to be

**D Bb F A**  
You were lying in bed and I would levitate

**D Bb F A**  
I think it s better here than where we used to be

**D F Bb A D**  
I wish I could go out into the Oregon sun

**A G# G E**  
To be alive in the day | ---

feedback | --- Bass only, with guitar

**G F# F D**  
I d smile at everyone | ---

I remeber you back in 83  
You were dressing insane you were my everything  
You were so different from all those other girls  
A bling electra in drag so cool and casually lame  
I think I m better now than how I used to be  
Always nervous and weird scared most of the time  
I think it s better now than how it used to be  
always up in the night afraid to live in the day

Afraid to live in the day yeah  
Afraid of being afraid

{solo which I don t know. Sorry}

Bass only:

```
G-----|
D-----|
A-----3-3-3-3-----2-2-2-2-----|
E0-0-0-0-----3-3-3-3-----|
```

Now I sit alone when you re not around  
I read aloud just to hear a friendly noise  
I see your scary dolls they always look at me  
From the corner of my eyes I see them shake their heads

Now back to bass and guitar:

You know I want to be the way you want me to  
Big hearted and tall enough to cover you  
You know I want to be the way you want me to  
I wish I could go out just to be alive in the day  
Yeah to be alive in the day  
To be alive in the day
