

**Friend
Everlast**

Friend

capo 2

intro: **G C Em D** (continue throughout the verses)

There s a sickness in my soul
and i don t know what i ve been told, it s incurable.
There s a darkness in my heart
slowly tearin me apart it s unbearable
A drop of blood, a lake of tears
but baby after all these years your still beautiful.
And i ve been loved, and i ve been used
cut wide open, scarred and bruised i m unbreakable.

CHORUS C Em G D

Flesh it heals i know, Hearts they never mend
lovers come and go girl right now i need a friend.

Walk for miles, talk for days
And i keep tryin to change my ways it s so difficult.
You kick and scream, you curse and yell
you tell me i should go to hell it s so typical.
Touch my heart, feel my pain
let me know i m not insane your so merciful
Break your heart, i cheat, i lie
honestly i don t know why i m so pitiful.

CHORUS

There s a sickness in my soul

and i don t know what i been told its uncurable

There s a darkness in my heart

slowly tearin me apart it s unbearable.

CHORUS

There s a sickness in my soul

and i don t know what i been told its uncurable
