

**This Kind Of Lonely  
Everlast**

This is a pretty easy song to play. I know that after the forth or fifth time a second guitar comes in who playes pretty much the same thing but i am not sure so this is basically the beginning and what he does throughout the whole song. All it is is a G chord then just move ur 2 top fingers down a string.

```
-----3-----3-----|
-----3-----3-----|
-----0---x8---0---x8---|
-----0-----2-----|
-----2-----3-----|
-----3-----0-----|
```

This is one of my favorite songs
